Ir is a great outrage that just now, when Mr. Gladstone, with Mr. Parnell, is trying to secure home rule for Ireland, a few blatherskites proposing to represent the citizens of the United States of Irish birth should be engaged in a conference looking to an attack upon Canada. Absurd, so far as any real movement in that direction is concerned, it is a cr'minal act of folly, which the Tory enemies of Ireland will hasten to make use of. Surely the Irish at home and abroad hav + reason, above all other peoples in the world, to pray, "Save us from our friends."

THE canvass in Georgia promises to be one of unusual bitterness. The feeling engendered by Gordon and Bacor, the two most prominent can didates for Governor, has communicated itself to the Congressional diswicts, where the candidates promise to make it warm for each other. The people should make an example of these hot-heads, and teach them a lesson that will serve them and their kind for all coming time. They should rule them all off the track and nom nate dark horses of known character and ability. Georgia is prolific of such men and they should be mustered in o service to the exclusion of of these politicians who prefer personalities to the discussion of the questions of the day.

THE people of Springfield, Mass yesterday and Monday celebrated the 250th anniversary of the settlement of that city with becoming ceremonies and enthusiasm. They have a great deal to be proud of. As the New York Herald says, the annals of Springfield "are full of stirring a !venture. Ten years after William Pynchon, with a few followers, in 1635, encamped on the banks of the Connecticut the first Congregational church was built. It had two tu-rets, one to be used as a watch tower and the other to hold the bell, which served the double purpose of callingthe ettlers to worship and giving the alarm in case of danger. Those were days when the old flint-lock and the be used as occasion required

THE Rev. Br. Braun preached a sermon in St. Patr'ck's cathedral, New York, last Sunday that has attracted a great deal of well-deserved attention. It was devoted to the three great erimes that are prevalent in America -mari'al infidelity, theft and anarchy. All three are crying evils. Marital infidelity is breaking up homes and families in many States; theft is everywhere rampant, in public offic s and in the rings that control speculation, that water s ock and make combinations to freeze out the poorer stockholders of great manufactories. This ast is the meanest sort of theft. It is a confidence game, in playing which the games ers are worse than the house-breaker or the footpad. The third crime is one against law and order, and is to be dealt with promptly and as severely as the law provides

Tus Greenville Times, for the good and benefit of the people of the "Shoestring" district, calls "for the renom-ination of Mr. Catchings. To his quick intelligence, rare tact and strong char-intelligence, rare tact and strong character, he now adds Cong essional experience; an invaluable accessory. He has acquired knowledge of and devotion to that chief in erest, which, worthy of any man's ambition, had he neglected we would have fore worn him had he been our brother. By arduous and constant labor he has seeured a place on the River and Harbor Committee, without which all else would have been of no avail. For the reasons above we call for Mr. Catchings' renomination. The issue upon which we base the call is one vital and deep. It will not, in the Yazoo delta at least, be narrowed or supplemented by a local, if not a mere personal

OF ALL the survivals of brutalizing, bigoted prejudics, that conceived by the O auge societies of Ireland surpasses them all. These organizations have their foundations in hate and detestation of the Catholics and exercise a baueful influence in perpetuating the divisions that have made Ireland the easy prey of English greed and rapacity for centuries. The prospect of home rule for their di tr cted country affords these blind bigots a fresh opportunity of showing how they are opposed to everything that is beneficial and necessary to her welfare, and they are airing themselves as if the "Battle of the Boyne" had been fought yesterday, and the Pope had resumed the soverand the lope had resumed the sovereighty an English predecessor presented to Heavy H in an evil hour.
They are doing the work of the devil
in the name of Christ, and are reducing Protestant divilization to pitful
proportions. Poor Ireland! between the Orangemen on one hand and the proposed invaders of Canada on the other, she is having a monkey and parrot time of it.

BEALTH IN TENNE-SEE. The Average During April About That of March,

From the Board of Health bulletin for Ap il we learn that the grand total of sickness in the State during April was about the average of that for March. As a single fac or in disease, maier's was more pronounced than at any time since winter began, and it existed over a larger area then any other one cause for the month. The re ports show it to have been present in localities high up among the foot-hills of the Cumberland moun alus, as well as the low ands which form Tennessee's water front along the Mississippi river. The prevailing disasses in the State, named in the order of their greater prevalence, for April were malarial fever, preum nia, ca-tar hal fever, rheumatism and dysencan out of it, and they will probably unite upon a minority report c usuring the Attorney General, and perhaps a in case of danger.
